signs I'm aromantic.
I cry whenever I think about
It's so scary to me
have to either had a crush
Hopefully not aro. I hate myself so much
makes me feel lonely
and labels
make us that,

I think I'm definitley aro and
don't want to accept it. Honestly,
fuck labels.

I don't think anyone believes what
that is. Like being aromantic.

I'm crying right now

I just convinced myself that I
